## Real Client Story: Magnolia Cluster (AR2)

A family booking a **3-bedroom villa in Arabian Ranches 2** reached out for a handover inspection. The only visible issue was a slight garage door misalignment.

### **What we found:**

- Inconsistent tile spacing at the entrance
- Improper sealing around balcony rails
- AC return duct gap reducing cooling efficiency

All flagged items were corrected by the developer within a week—**just in time for their move-in date.**

*“The attention to detail helped us walk into a truly finished home,”* they later shared.
